# Supplier Assessments

## Purpose and Scope

---

- Purpose:
  - Assess conformance with requirements and monitor improvements to better enable the realization of quality products and services for NASA mission projects
- Scope includes the Supplier's implementation of:
  - NASA contractual requirements, including mission assurance, risk management and systems safety
  - Quality Management Standards (ISO 9001 or AS9100)
  - Internal processes / procedures supporting the fulfillment of requirements
  - Government-Industry Data Exchange Program (GIDEP) Alerts
  - Industrial Safety
- Each assessment is tailored (per Assessment Plan) to address applicable requirements, past findings and any NASA project management concerns
